The line of PowerTIGs have been around since 2009. Slowly but surely we’ve been adding to our 300+ amp lineup of AC/DC TIG welders. To date that number stands at Three. That is: very affordable welders that feature loads of performance-oriented features. We’ve taken on the hard job of offering you a cross comparison here so that you can see all the features, and relevant performance specifications side by side. We’ve compared the most frequently compared products that our customers have often asked us about in comparison to these three PowerTIG models. If you haven’t figured out which welder you need, or can even afford, this will help you figure it out. We’ve not only compared similar powered welders, but also similarly priced units. If you are looking to see the fine details of how our units stack up against your favorite brand, this will help you also. Keep in mind that these specs are as detailed as we can make them based off other manufacturers provided information, and can change without notice based off of manufacturer’s routine upgrading and changing of their product lines.

### PowerTIG 315 LX
- **Price:** $1999.00
- **Warranty:** 5 Year Parts and Labor
- **TIG Kit Included:** Yes
- **Inverter or Transformer:** Inverter
- **Type of Input Power:** 1 Phase
- **Input Voltage:** 200-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 112 lbs.
- **Price:** $2799.00

### PowerTIG 325EXT
- **Price:** $2999.00
- **Warranty:** 5 Year Parts and Labor
- **TIG Kit Included:** Yes
- **Inverter or Transformer:** Inverter
- **Type of Input Power:** 1 Phase
- **Input Voltage:** 200-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 112 lbs.
- **Price:** $3612.00

### Dynasty 280 9071051
- **Price:** $5667.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Inverter
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-270V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 130 lbs.
- **Price:** $6129.00

### Dynasty 280 DX 9071051
- **Price:** $5150.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Inverter
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-270V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 110 lbs.
- **Price:** $5250.00

### ET 301 91014403
- **Price:** $2865.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Transformer
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 110 lbs.
- **Price:** $2905.00

### Aspect 375 921262-2
- **Price:** $2050.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Inverter
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 130 lbs.
- **Price:** $2079.00

### Precision Tig 225 93265-1
- **Price:** $2765.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Transformer
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 195 lbs.
- **Price:** $2800.00

### Invertor 211 70320-12.5
- **Price:** $4995.00
- **Warranty:** 3 Years Parts and Labor
- **TIG Kit Included:** Optional
- **Inverter or Transformer:** Transformer
- **Type of Input Power:** 1 and 3 Phase
- **Input Voltage:** 208-240V
- **DCNNE Size or Type Connector Compatibility:** 35/50
- **Flash (Torch) Amps @ 24V 1 Phase:** 33A
- ** mois:** 195 lbs.
- **Price:** $5299.00
